Cataloging Resources That Support Pre-release and Community-Based Services

The tables below are designed to build on information that your local reentry coalition already has gathered about pre-release and community-based services. Using the tables from [Appendix C: Part 1](#) as a starting point, now complete columns H through K for each of the services that you listed. By reviewing how funding is allocated, your coalition can determine whether your community is optimally leveraging resources to serve the reentry population.
